Staff Picks: Free Software

Finding reputable free software used to be easy, but these days you'll often find free software comes with nasties that you didn't ask for, such as viruses or spyware. How many of you have downloaded free software, only to find another 'search toolbar' has installed itself, or you're suddenly being bombarded with popup ads?

Here's our staff's pick of safe, reputable software. As always, it's important to make sure you run an antivirus program, and a good personal firewall.

NEW Premium Business 054 Tolls Plan

Using VoIP (Voice over Internet Protocol) technologies, we are now able to significantly reduce the cost of business toll calls. We have a new plan available for businesses who currently spend a minimum of \$300 per month on toll calls.

The new "**Premium Business 054 Tolls**" plan offers significantly cheaper rates than our standard Direct Dial tolls, and gives businesses access to superb calling rates, such as **32c +GST for land-to-mobile calls.**

The Premium Business 054 Tolls service can be used in two ways. Either your staff can dial the 054 code before making a toll call. This may be from phones in the office, or for staff working from home, dialling 054 will charge the toll call to the company account. Alternately, if you have a programmeable PABX, you can reprogram your PABX to insert the 054 prefix on toll calls, meaning your staff can dial as normal, and your business can save significantly on toll calls by sending the calls through 054.

Sample Calling Rates

Nationwide NZ:	6.2c
Land-to-Mob:	32c
UK:	7.1c
USA:	7.1c
Australia:	7.1c.

Rates are per min, and exc. GST.
