

It's FREE to join 054 Tolls!

If you're concerned about the rising costs of your monthly phone bill, or you need to make your budget stretch, did you know that it's free to activate your Quicksilver 054 Tolls account? There's no minimum monthly spend, you only pay for the calls you make, and in most cases you'll save a significant amount on national and international toll calls.

It's free to join, and the rates are always offpeak.

- Offpeak calling rates ALL day EVERY day
- Check your call records online
- FREE to join
- Choose when you use it, by dialling the 054 code
- Available for home or business
- No need to change your phone number
- Can be used from your ordinary phone
- Doesn't affect existing toll provider deals

Visit www.054.co.nz to activate your account today!

Webcam & Multimedia Headset:

Michael Harden, Wellington
Peter Olds, Auckland
Wayne Graham, Auckland

iPod Shuffle 512MB:
Margaret Pittman,
Northland.

We hope you all enjoy your prizes, and your new fast Broadband connections!

New! Quickfire Wireless Broadband

For small and medium businesses within the coverage areas, we can now offer our new **Quickfire Wireless** connections, powered by Wired Country.

Quickfire Wireless delivers high-speed internet with extremely low latency and affordable plans. Symmetrical speeds are also available (speed is the same both up and downstream).

Quickfire Wireless is suitable for small businesses in our Wireless coverage areas who need high speed for both upload and download, low latency for voice or other applications, and a low-cost monthly fee.

KEY BENEFITS

- Low cost
- High speeds
- High reliability & low latency
- Symmetrical speeds available (512k/512k or 1M/1M)
- No reliance on telephone network
- Great alternative to ADSL for businesses

A qualified installer will visit your premises and install the required hardware. This involves attaching a dish similar to that used for Sky to the side of your building.

In order to get Quickfire Wireless, you need to be within one of the coverage areas around Auckland, Warkworth or Hamilton, and have clear line-of-sight to one of the transmitters.

PRICING

Plans are available as asymmetrical (different upload and download speeds), or symmetrical (same speed up and down).

Plans start from \$79 per month, and speeds range from 256k up to 3M.

For more information, see our website at www.quicksilver.co.nz

Dialup's Not Dead!

Whilst Broadband is becoming popular, good old Dialup internet will be around for a while yet.

Our Dialup customers continue to get a better deal than ever at Quicksilver, and we want to make sure every customer is getting the best deal possible.

If you prepay your Neon dialup connection, not only do you get a great discount on the standard rates, but you also now get FREE Slipstream accelerator, to speed up web browsing and email on your dialup connection by up to 8 times!

Our rural customers have told us that Slipstream can make a huge difference on those poor rural phonelines, to improve the speed of web browsing and email..

Slipstream is a small program that runs on your computer, and talks to our server, compressing and optimising data so that it moves faster over your dialup connection. You don't need to buy any extra equipment, and it works on any Quicksilver dialup connection, nationwide.

12 month prepay dialup is just \$198 per year, which works out at \$16.50 per month - a saving of almost 30% on our standard rates PLUS you get the free Slipstream worth \$60 for the year.

To upgrade your monthly Neon dialup plan and get your free Slipstream setup, contact our helpdesk on **all0800 QUICKSILVER (0800 784 257)**.

Business Watch

NEW Premium Business 054 Tolls Plan

Using VoIP (Voice over Internet Protocol) technologies, we are now able to significantly reduce the cost of business toll calls. We have a new plan available for businesses who currently spend a minimum of \$300 per month on toll calls.

The new "**Premium Business 054 Tolls**" plan offers significantly cheaper rates than our standard Direct Dial tolls, and gives businesses access to superb calling rates, such as **32c +GST for land-to-mobile calls.**

The Premium Business 054 Tolls service can be used in two ways. Either your staff can dial the 054 code before making a toll call. This may be from phones in the office, or for staff working from home, dialling 054 will charge the toll call to the company account. Alternately, if you have a programmeable PABX, you can reprogram your PABX to insert the 054 prefix on toll calls, meaning your staff can dial as normal, and your business can save significantly on toll calls by sending the calls through 054.

Sample Calling Rates

Nationwide NZ:	6.2c
Land-to-Mob:	32c
UK:	7.1c
USA:	7.1c
Australia:	7.1c.

Rates are per min, and exc. GST.

Contact Us

If you currently spend a minimum of \$300 per month on toll calls for your business, and you'd like to talk about how we could save you money, please contact Andrew Mackintosh on **09 916 0278**
